

Good News!

Year 6

GONE TO PGL!

Year 5 In maths this week we have been using different strategies for subtraction. We used the column method or a number line to find the difference. We have been using decimal numbers too.

We have been reading *The Hodgehog* in SFA which is about a hedgehog who has been injured by a car and now gets all his words mixed up. We have been using speech to write an argument between two of the characters.

In Science we have looked at the life cycle of a toad and a salamander and comparing them to each other – we found out that when toads are born they have tails and weak legs. The tails fall off when they grow up which is a bit gross!

We both enjoyed dodge ball this week – it was fun when we added more balls onto the court as it got more difficult to avoid them! Clayton and Aaliyah

Year 3 We have been learning about rocks in Science. We found out that chalk is good for drawing and that slate is a good material for building a roof. In Maths we have been learning to add and subtract money and we have been partitioning numbers.

In SFA we have been reading a great book called the 'Hodgehog' and it is really good. Dexter and Robyn

Year 1

This week we made our sunflowers for Harvest assembly. It was fun! Joey

In maths we have been learning about teen numbers. They are 2 digit numbers. Scot

Year 4 In SFA we have been learning how animals migrate. We wrote why they migrate then checked our writing through to improve it even more. We have been reading about the Titanic then writing newspaper reports. We thought about the aftermath of it sinking and how it will go down in history so people won't forget it.

In maths we have been halving three digit even numbers and learning what quotient means.

In science we have been learning that condensation is when a liquid changes state and becomes a gas. We did an experiment to help us advise a football manager about the best way to dry a football kit so it is ready for the next day.

Samuel and Amelia

Year 2

I have enjoyed science because we have been testing bean seeds and whether it matters what position they are planted matters for them to grow. I predicted that the bean seed facing upwards would grow the best. (Arthur)

I have enjoyed planting beans. My group were looking at whether it was better to plant the bean on the surface or under the soil. I predicted the one under the soil will grow. (Millie) Arthur and Millie

Reception

Mrs Bailey made a really good board game that we played racing horses and I won against Mrs Bailey. I like building things with my friends using the bricks (Freddie). We went to visit Tattersalls, Palace House, Severals House and Hyperion as a class. I enjoyed looking at Hyperion the most (Ethan). Freddie and Ethan

Week ending Friday 11th October 2019

Good News!

continued

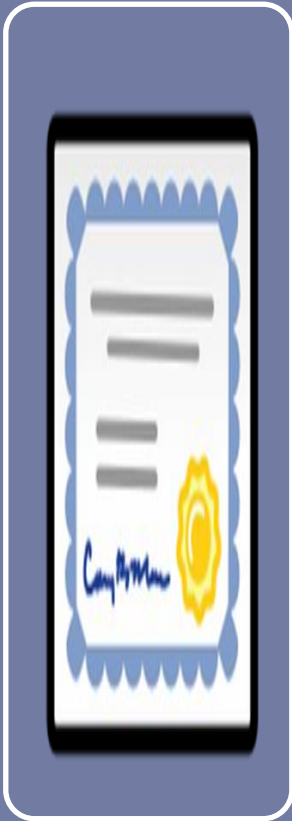

Mrs Moore's Memorable Moment

This week school has been very quiet without year 6 who have been away for the week at PGL Bawdsey Manor. They have had a wonderful time raft building, abseiling and climbing (to name but a few activities) and we are looking forward to welcoming them home at the end of today.

Thank you to all of you who supported Mental Health Day on Thursday by wearing something yellow. All of the money you kindly donated will go directly to Young Minds to support children and young people's mental health. The school was a bright and colourful place with so much yellow. It was wonderful.

This Week's House Points winner is:

Palace House 1970

Tattersalls House 2027

Severals House 1226

Hyperion House 1701

News from the PTFA - School Disco – Friday 18th October

Foundation/Key stage 1 disco from 5.30 pm to 6.45 pm and Key stage 2 disco from 7.00 pm - 8.30 pm.

Tickets are available on the door at £3.50 each, which includes unlimited drinks and a hot dog (or vegetarian option). We will also have coloured hairchalks, hair extensions, hair lights, snap bracelets, cakes, fruit, crisps, chocolates, tattoos, glow sticks, glow lights, popcorn and candy floss. Donations of cakes and biscuits to sell on the night would be very welcome (no nuts please).

Attendance for this week

Reception	98.67%	Year 1	97.33%	Year 2	96.67%	Year 3	97.78%
Year 4	98.67%	Year 5	99.64%	Year 6	100%	Whole school 98.39%
